Savings Department

As population becomes denser and savings accumulate, there is imperative need for a sate and convenient place to deposit such funds. The savings of those who are not in commercial or industrial business cannot be

made to yield a fair return so safely as by deposit with this company. There are industrious people in every comwith values, and their savings, therefore, He idle. In this department the company accepts deposits of \$1 and upwards at any time, and pays thereon interest at the rate of 2 per cent, per annum, compounded semiannually-on May I and Nov. I of each year. There are no fines, no fees, no deductions of any kind. A way is thus opened to the holders of small sums to get a safe and

regular return on them. While waiting for some other form of investment, such as the purchase of real estate, one need not allow money to be idle. Security for the safety of such deposits is found not merely in the character of the company and its officers, but in its great at Fort Wayne yesterday completed 150 box financial responsibility-the whole of its capital and an equal amount from its stockholders; also its surplus fund, making in all nearly \$2,000,000, are pledged for its fidelity.

The New York stock market was dull most of the day except at the closing, when there was considerable activity. The interest largely centered in the coalers, which made some handsome advances, and a number of the specialties went up over a point. but fractional advances were the rules in many other stocks. Published report of a combination of practically all the coalers was the ground for the strength in those properties. Much interest attached to the laration of the regular dividends nounced and then moderate activity apto the Southern Pacific on the claim granted by Congress lent strength to that property. The expectation of favorable legislation lifted Consolidated Gas 5 points, there being a sympathetic rise in other local stocks, including Metropolitan and Brooklyn transit, which were up about one half as much. The stagnant tone which prevailed the greater part of the session with fluctuations of only is or so was dispelled during the final dealings, when the coalers were marked up and there was a sympathetic rise elsewhere. Lackawanna and Reading firsts preferred led the coalers with an advance of 3 each. Among the standard stocks St. Paul gained a point. Money was slightly easier and closed 21/263 per cent. Considerable money was said to be heading toward New York from the interior to take advantage of the recent firmer tone in money, both for call and time. The discount market also worked closer, rates for prime names ruling at 340

3% per cent. The closing tone of the stock market was strong. There was a decided increase in bond operations, the activity being attended by a higher level for the leading issues. Erie generals and Chicago Terminal fours were unusually active and made substantial gains. Total sales, \$4,600,000. United States fours and fives declined 14 in bid prices. INCREASE IN WORLD'S VISIBLE RE-SULTS IN SLUMP OF 13-SC.

More Wheat in Sight than a Month Ago by 5,500,000 Bushels-Corn Unchanged and Pork Higher,

by longs to-day, owing to the world's visia decided slump in wheat, and May closed each and lard 25/265c.

makes a monthly report of the world's stocks of wheat and flour, showed in its report for the beginning of the present month the world's visible stocks to be 11,000,000 bushels larger than a year ago and 5,500,000 bushels more than at the beginning of February. May opened %c lower, at 714@71%c, and made a further decline of 18714c inside the next minute. Chicago receipts were fifty-four cars, of which only one graded contract. Minneapolis and Duluth got 399 cars, compared with 334 the same day a year ago. I tion to meet the views of manufacturers. The The aggregate at the principal Western markets was 580,000 bushels, against 485,000 bushels last year. Atlantic bort clearances were equal in wheat and flour to 563,000 bushels. Liverpool and foreign markets ruled weak at a sharp decline. A dispatch from Buenos Ayres denied that serious damage had been done to wheat in Argentina by the heavy rains, claiming that wheat was for the most part under shelter. When it was seen that nothing in the early news was of a character to sustain or at least improve the chances for a rally liquidation became general and the price of May slipped off to 70%c. Some covering of short wheat around that point, however, caused a slight temporary recovery. The price, however, soon had another slump, which took it as fresh Southwestern, 21@22c; fresh Southern, 21c low as 70 2c. Advices from California said | Cheese firm. that the crop in the southern vaileys had been completely burned up. The market creamery, 14@19c; dairy, 15c. Just at the end of the session a to 70%c. Just at the end of the session a 14%c in new whitewood cases, cases included. message was received 160m San Francisco saying it looked like rain. That caused more selling and a further decline to 70%c, the closing figures being 104@10%c. Light offerings and moderate receipts strengthened corn. There was very little pressure on the market and fluctuations

were within a narrow range. Receipts were 215 cars. May began a shade lower at 35/266 5%c, rose to 35% @35%c and closed at 35%c Covering by shorts and a good cash inquiry from the East held oats steady within a narrow range. Receipts were 143 cars. May opened unchanged at 27%c, improved to 271/2c, then weakened to and closed at

Diminishing receipts of hogs and a good cash meat demand strengthened provisions. Trading was chiefly in the way of changing. May pork opened a shade higher at \$9.25/a9.271/2, advanced to \$9.35 and declined to \$9.271/2 at the close. The range in lard and ribs was small. Estimated receipts for Thursday-Wheat, 70 cars; corn, 365 cars; oats, 180 cars; hogs,

BOSTON, March 8.-The American Wool and Cotton Reporter will say to-morrow: The wool market is very quiet. But few manufacturers have been in, and they have purchased very spar ingly. The sales of heavy-weight goods have thus far been disappointing, and, failing to receive orders which they anticipated earlier in the season, they naturally feel disinclined to buy very liberally of wool. The dullness is also intensified by the announcement of the formation of the worsted trust, which has been the all-absorbing topic of conversation, both in manufacturing cir cles and in the wool trade. Prices are generally unchanged, although dealers show more disposisales of the week in Boston amounted to 2,612,000 pounds domestic and 710,000 pounds foreign, making a total of 3,322,000 pounds, against a total of 3,263,000 pounds for the previous week and a total of 1,237,000 pounds for the corresponding week last year. Sales since Jan. 1, 1899, amount to 36,802,500 pounds, against 36,019,480 pounds last year at this

She Filled the Bill.

Detroit Free Press. The theatrical manager looked up from the bill file on his desk and scrutinized the young woman carefully. "So you want to be featured, do you?" he asked. "Yes, sir," was the reply as the woman tossed her head and filled the air with the soft, soothing odor of peroxide. "Have you a past?" inquired the manager anxiously.

"Two of them." was the quick retort. "Two of them; how's that?" "One died and I've been divorced from the
